Product Highlights

A FEW BENEFITS NONPROFITS CAN'T DO WITHOUT

Restricted Funds

Properly define funds to eliminate the commingling of cash. Honor donor directives by tracking and reporting on the restricted use of funds. Restrict users to the specific funds they are assigned to.

Encumbrance Accounting

Enhance the procurement to pay workflow. Capture expenditures at the time they are foreseen to protect Budget. View "Workflow Summary" from Requisition to Encumbrance to Actual spent, including unposted entries all compared against the Budget. See the entire financial landscape in a single-pane..

Budget Validation

Configure the "Budget Preferences" to avoid over Budget scenarios across the NonProfitPlus system. Perform Budget validation to keep Fund, Grant and Program activities within the approved Budget during data entry. Be warned or prevented from over spending.

Grant Management

Maintain your funding sources by proper recording and reporting. Gain a complete overview of all grants from the dashboard while being able to drill down into greater detail. Easily view all Grant summaries, including spending and budgets all on one screen.

Volunteer Management

Report and track volunteer contributions to secure additional funding. Allow volunteers to submit their time and upload receipts while restricting their data access.

Fund Accounting

Bring balance to funds to demonstrate accountability and stewardship. The system automatically creates redistribution and due to/ due from accounting entries. Easily track revenues with purpose restrictions against the expenditures made for those purposes.

Statement of Excellence

We aspire to uphold a standard of excellence through continual improvement of our product, processes, and services by demonstrating integrity and transparency in all our actions.
