The GRF Advantage

Our experienced staff supervised by certified public accountants is poised to respond to your organization's needs providing on-site or off-site support and lending strategic advice to support your decision-making process and position your organization for the opportunities and challenges ahead.

Outsourced Accounting & Advisory Services

Clients trust GRF CPAs & Advisors to manage their 21st Century accounting needs. Our professionals regularly serve as a sounding board and training resource for their leadership, help improve internal controls and strengthen accountability, and reduce overhead by eliminating the need to hire or train accounting staff. Seasoned CPAs bolster clients' decision-making through strategic advice and diminish their risk with accurate and timely financial reporting.

Leveraging Technology: "We're your 21st Century Accountants"

Our professionals lead the way in experience with the most popular technology available in today's rapidly changing accounting environment. We offer ways to streamline cumbersome processes in order to save you time and help you focus on your core activities. We partner with technology solutions such as [QuickBooks Online](#), [QuickBooks Desktop](#), [Sage Intacct](#) accounting software, [Bill.com](#) (cloud-based automated accounts payable and more), [Nexonia](#) (cloud-based automated expense reporting and more) and many more. While we leverage the latest technology; we also embrace the importance of personalized service for our clients.

Ongoing and Temporary Outsourced Accounting

Whether your needs are ongoing or temporary, our experienced professionals can perform your accounting functions (at your office or at ours), saving you the challenge of hiring in-house resources. Our expertise ensures a minimal learning curve and we tailor a unique approach to each client's needs from simple work such as transaction processing to high value services such as audit readiness, strategic planning and budgeting, financial statement analysis and reporting and leadership of your accounting team.

High Value Services

In addition to providing outsourced accounting services, our experienced professionals can serve as your controller or CFO, assist with strategic planning and budgeting, provide audit preparation and readiness, implement accounting best practices, supplement or redesign your financial reporting, improve your internal controls and escalate your accounting policies and procedures.
