

CPAs & ADVISORS

Trusted Provider of ESG & Sustainability Services to Nonprofits and Associations

At GRF, we are committed to helping organizations drive positive change through their Environmental, Social, and Governance (ESG) initiatives. We help transform ESG into better decisions, stronger operations, and greater mission impact.

Dedicated Nonprofit & Association Expertise

For mission-driven organizations, ESG and sustainability efforts are not just a reaction to mandates. Our approach is to integrate stakeholder and member insights into ESG and sustainability approaches, so priorities reflect the needs of those served, not just regulatory or reporting requirements.

We help nonprofits and associations translate ESG into practical decisions, embed it into operations, and strengthen mission delivery in a way that is both responsive and accountable to stakeholders.

45 years of Advancing

TALENT, CLIENTS
and **COMMUNITIES**

ESG & Sustainability Advisory Services

GRF offers integrated services to help your organization make the best use of ESG, creating a meaningful impact on your stakeholders and community, while also aligning it with your strategy. Our advisors are also deeply experienced in evolving ESG requirements, governance issues, compliance, and risk mitigation.

ESG QuickStart Assessment

Need help getting started? GRF will conduct a review of organizational priorities and material issues, resulting in a report of findings and recommendations. [Learn More>](#)

ESG Impact Report

GRF will do a sustainability assessment of the organization, resulting in an internal report of next steps, along with an externally facing Impact Report for constituents.

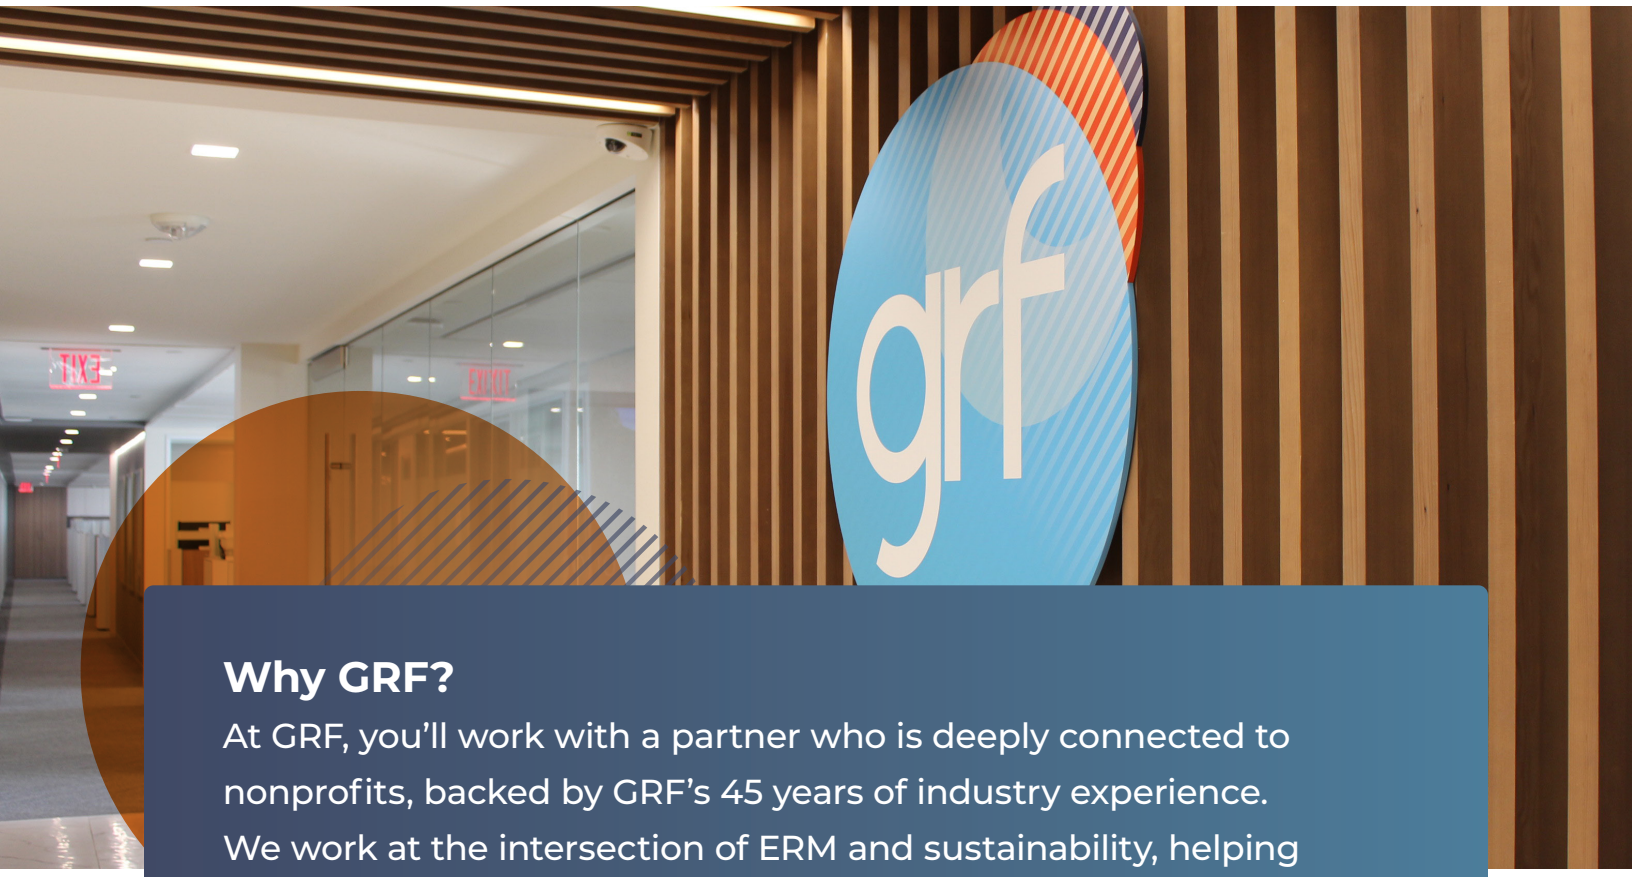

ESG Program Accelerator

Taking ESG to the next level, GRF will build on our sustainability assessment and Impact Report to provide action plans and a roadmap for the top material topics identified. This may include GHG inventory, data governance, conference/event ESG assessments, supply chain analysis and recommendations, employee engagement and diversity initiatives, or climate transition plans.

Sustainability Audit

We can audit your Environmental, Social, and Governance policies and procedures to identify compliance risks and recommend mitigation actions.

Why GRF?

At GRF, you'll work with a partner who is deeply connected to nonprofits, backed by GRF's 45 years of industry experience. We work at the intersection of ERM and sustainability, helping organizations right-size their efforts by building on what they already have. Our guidance turns sustainability insights into strong, strategic decisions. This boosts resilience and long-term value.

- **Focus:** GRF is one of the few public accounting firms that focuses on the complex audit, accounting, tax, risk, and operational needs of nonprofit clients.
- **Knowledge:** Our advisors receive constant training to ensure they have the technical skills and expertise to address the evolving needs of nonprofit organizations.
- **Opportunity:** You'll gain access to GRF's training sessions, webinars, and seminars to stay informed of financial, operational, and regulatory issues that will impact your organization.
